

Post-Surgical Bra codes 701-705; Application Instructions:

English:

1. Gently guide patient's arm through opening
2. Roll patient onto her side and guide surgical bra behind patient's back.
3. Place opposite arm through opening.
4. Grasp both ends of bra and press Velcro® to secure (there should be some tension).
5. Bra can easily be adjusted by peeling Velcro surfaces apart and repositioning.
6. The post-surgical bra securely holds dressing in place until patient's follow-up visit.
